**1. What is your connection or interest in this case? \* For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)**

I am a customer and Generating solar power for the company under a signed agreement.

**2. Please give a concise statement of your protest. \* (This section must be completed. Attach additional information if necessary.)**

We object to ANY fees associated with the selling or generating of our surplus power to Dominion Electric. While a reasonable charge for maintenance infrastructure is acceptable, a penalization fee - intended to diminish the value of any solar power generation by any of its customers is absolutely absurd especially after already having contracted agreements in place, a huge solar installation industry that no doubt pays more people and with better salaries than working for Dominion Electric, and during a time when coal and oil are to soon be retired for what they are: FOSSIL fuels. The idea of a company to suppress any form of solar production during this historic period of Climate change illustrates the company and its board of directors is also fossil like in wanting to maintain an already out dated business model. Rather the company should make bigger endorsements for solar, provide incentives for solar installation, production, etc., to reduce the companies emissions, reduce customer cost, and reduce its
